HYATT SEEN AGAIN

WORK BEGINS AT ONCE

Noted Train Robber Reported in Hiding Near Madisonville

Escaped from the Nashville Pen and a \$5,000 Reward is Offered for Him.

FUGITIVE HAS MANY FRIENDS

Madisonville, Ky., June 29—It is reported that Gus Hyatt, the noted outlaw and train robber, who in the past years has won so much notoriety in this section, has been seen by various persons in these parts again.

It will be remembered that Hyatt, by the use of explosives, blew a hole in the prison wall of the state penitentiary at Nashville last year and freed several convicts, standing the guards off with two revolvers.

Hyatt has several friends in this section, but more enemies than friends. He is considered by the people of this section to be equal to Harry Tracy.

He put up one of the most daring fights ever known in this section about four years ago in Union county, when deputy sheriffs of that county and six or seven other men attempted to take him into custody, which fight resulted in the death of the deputy sheriff and the retreat of the remainder of the posse, and Hyatt went unjured on his way.

It was said that the hold-up of the fast express between Guthrie, Ky., and Clarksville, Tenn., was one of the most daring train robberies ever before perpetrated, he single-handed taking complete control of the train for several minutes until he availed himself of all the money and valuables on board the train. This adventure led to his arrest.

There is a standing reward for his arrest, and it is said the express companies will give \$5,000 for him dead or alive.

Freerger, Proprietor, Grand View Hotel, Cheyenne, Kau., writes: "I have used Herbine for the last 12 years, and nothing on earth can beat it. It was recommended to me by Dr. Newton, Newton, Kau." 50c at DuBois, Kolb & Co.

Contractor of Government Addition Has Arrived.

TOMORROW Morning Work at the Building Will Begin and be Pushed.

FEDERAL BUILDING NEWS

W. H. Bailey of Henderson, who has the contract for the addition to the government building, is in the city and announces that work on the addition will begin tomorrow.

Mr. Bailey is accompanied by Mr. L. E. Koerner of Henderson, who will superintend the work. Mr. Bailey secured the contract, as already announced, on the lowest bid, which was \$57,709. The limit allowed for the completion of the building is September 4, 1904. The contractor says, however, that the work will be finished before that time.

There is much preliminary work to be done and much material to receive before the active building begins, but ground will be broken this week and work pushed to early completion. The addition, it will be remembered, will make the custom house twice its present size and make the building the finest and most imposing in this end of the state.

MARRY IN MEMPHIS CONSUMING POWER

Miss Maide Bradshaw and Mr. Frank Murray Wed.

CEREMONY PERFORMED THIS MORNING AT 11 O'CLOCK AT MEMPHIS MINISTER'S HOME.

ANNOUNCEMENT A SURPRISE

An announcement which will prove a surprise is that of the wedding of Miss Maide Bradshaw of this city and Mr. Frank Murray of Pine Bluff, Ark., which took place this morning at 11 o'clock in Memphis. Miss Bradshaw left here at 3:30 o'clock over the F. O. for Memphis, accompanied by her brother, Mr. Miller Bradshaw. She was joined there by Mr. Murray and the marriage was quietly solemnized at the home of a Memphis minister. The bride wore a simple traveling dress.

Miss Bradshaw told only her family and a few intimate friends of her intention to be married before leaving here. She ostensibly started with her brother on one of his southern drumming trips, and this announcement will be the first news of happy event to many to whom it will be interesting.

The bride is the daughter of Mr. and Mrs. E. R. Bradshaw and is one of Paducah's most charming young women. She was born and reared in this city and her graces and winning personality has made her a general favorite, while her many lovely traits of character have endeared her especially to those who know her best.

Mr. Murray came originally from Owensboro, but resided in Paducah about two years as linotype operator for the News Democrat. He went to Pine Bluff several months ago, and now has an lucrative position as machinist-operator on the Pine Bluff Graphic. He is bright, capable and genial, and is popular here.

OF THE UNITED STATES INCREASES RAPIDLY.

IMPORTS AND EXPORTS SHOW A PHENOMENAL GROWTH IN LATE YEARS.

IS AN EXCELLENT SHOWING

The growth in the consuming power of the United States in this period of business activity is illustrated by the figures of the treasury bureau of statistics showing the importations and exportations by great groups during the eleven months ending with May, 1903. These figures show that while the exportation of manufactures has increased only two million dollars as compared with the corresponding months of last year, the importation of manufacturers' materials has increased 66 million dollars as compared with the same months of 1902 and 181 millions as compared with the corresponding months of 1901. As it can scarcely be presumed that the manufacturers of the country are importing in excess of their present or immediately prospective requirements, it would seem that the increase in manufacturers which this growing importation of materials indicates is being consumed at home, since exportations of manufactures for the year show no material increase.

A rapid increase in the importation of manufacturers' materials has been the striking characteristic of the fiscal year about to end. For the eleven months the total value of manufacturers' materials imported amounted to \$451,081,163, against \$394,775,764 for the same months of last year, \$51,824,957 for the corresponding months of 1901 and \$363,455,072 for the same months of 1900.

HOW WOMEN CARRY MONEY.

Women have a constant fear of being robbed of their money and as a consequence exercise their ingenuity in discovering places in which they can conceal it about their person in places where a thief would never think of looking for it.

The most common place for a woman to carry greenbacks is in her stockings. Since the days when Eve's daughters began to wear this article of dress it has been a favorite safe deposit vault. It is safe to say that three out of every ten shoppers in a department store will have a little roll of money tucked away in her stocking, and when she decides to make a large purchase she will seek a secluded spot and dive down for the money.

When a woman is calling she usually carries a little change in her card case, especially if she is obliged to ride on the street cars. If she is traveling she wears a tiny chamois skin bag about her neck for the purpose of safeguarding her money and jewels. The glove is a favorite place for carrying money, especially on Sunday, when the hands are busy taking care of a prayer book and the train of a Sunday-go-to-meeting gown. The little space between the glove and the palm of the hand holds just enough for the offering and car fare. The schoolgirl carries her change wrapped up in the corner of her handkerchief. There it remains until noontime or recess, when she unties the knot and buys her lunch, candy, chewing gum or a lead pencil.

Now that the sleeves resemble nothing so much as a good-sized satchel they are used for carrying money tied up in handkerchiefs. The full-front shirtwaist is a convenient hiding place for money and other feminine belongings. A petticoat pocket often is used by women for their valuables. They know this pocket is an impossible thing to find and would as soon think of having the garment made without a band as without a pocket.

Many girls wear little finger purses and tiny silver bags suspended from chains to carry their change. A bracelet purse of leather or silver is worn by the fast-loving maiden, but no one would ever suspect that there was money in it. Perhaps the girl who carries her car fare in her mouth is the least common of all, but she exists.

GRAVES COUNTY LED.

Frankfort, June 29—Kentucky's tobacco crop for 1903 was 190,716,886 pounds, grown on 284,702 acres. Graves county led in production, with Daviess county next.

The Innocent Suffer With The Guilty

The world to-day is full of innocent sufferers from that most loathsome disease, Contagious Blood Poison. People know in a general way that it is a bad disease, but if all its horrors could be brought before them they would shun it as they do the leprosy. Not only the person who contracts it suffers, but the awful taint is transmitted to children, and the fearful sores and eruptions, weak eyes, catarrh, and other evidences of poisoned blood show these little innocents are suffering the awful consequences of some body's sin. So highly contagious is this form of blood poison that one may be contaminated by handling the clothing or other articles in use by a person afflicted with this miserable disease. There is danger even in drinking from the same vessel or eating out of the same tableware, as many pure and innocent men and women have found to their sorrow. The virus of Contagious Blood Poison is so

CONVICTS TORTURED

GOVERNOR OF GEORGIA ORDERS AN INVESTIGATION.

Atlanta, Ga., June 29—Governor Terrell has ordered an investigation of the misdemeanor convict camps of Georgia because of the evidence presented to him that these camps are hotbeds of brutality. The camp to be first investigated is that of Hough Ilot in Oglethorpe county. The governor in his order charges that illegal acts are committed there, including cruel and inhuman whipping, inflicting of punishment unchristianized by law and failure to provide proper food, clothing, tobacco and sleeping quarters, as required by law. It is alleged that the convicts have almost been cut to pieces by whips, and that they are handled together at night like lepers. Edward McCree, a member of the house, runs a convict camp, and he has been charged by a grand jury withholding men in servitude.

TO FIGHT UNIONS

EMPLOYERS TO ASK REPEAL OF ALL LAWS FAVORING UNIONS.

Kansas City, Mo., June 29—The Employers' association, with 8,000 members, including most of the business men of Kansas City, has started a movement to repeal all city laws that discriminate in any way between union and independent labor. There are several city ordinances that favor the product of union labor. One of these ordinances that favors the product of union labor to the exclusion of independent labor. One of these ordinances is that which forbids the meeting of printing contracts to any but strictly unionized shops. This ordinance, the Employers' association will work to have repealed. It is opposed also to the city's eight hour law, and to the ordinance's requiring an applicant for an engineer's license to be examined by a board composed of union men.

"Street car riding, while in the main a benefit, still has its serious drawbacks. Young women with their shoulders scarcely clad in thin lace goods, ride in the open cars which go at a speed as if shot from a gun. Swift breezes blow through the cars at the rate of a hurricane and the next morning these young women wake up and tell their mammas that they have caught a bad cold and can not account for it.

"This is a dangerous practice indulged in every night with entirely too little concern and too much frequency. Mothers should warn their daughters against this and fewer colds would result."

BIG ANNIVERSARIES

GETTYSBURG FOUGHT OVER FORTY YEARS AGO FROM WEDNESDAY.

A few days hence will come the fortieth anniversary of the decisive battles of the Civil war. On July 1, 2 and 3, 1863, was fought the battle of Gettysburg, in which Lee was defeated by Meade. On July 4, 1863, Pemberton surrendered Vicksburg to Grant. A tablet on the battlefield at Gettysburg marks the spot at which the high tide of the rebellion was reached. There had been some raids into the free states, but Gettysburg, which is in Pennsylvania, close to its southern border, was the only instance of an invasion of the north in any formidable force. When Lee was beaten in that demonstration the fortunes of the confederacy began to wane.

The City of St. Louis took about 500 people to Cairo yesterday morning to witness the double-header ball game between Paducah and Cairo. The boat reached there at 2 p. m. and arrived here at the wharf at 2 a. m. There was very little disorder aboard the boat. Bob Mays, of the city, drew a gun on Mr. G. Rogers, and was put off the boat at Oaledon in the dark, and will probably arrive home some time today. The St. Louis went to Evansville early this morning to run two excursions out of there this week.

PAYING FOR HIS FUN.

Youthful Philosopher Had Received Value for His Whipping.

"That boy of mine is a philosopher, there's no doubt about it," said Jim McColl's father as the boy bade the circle about the open fireplace good night and went off to bed.

"You know he played truant yesterday; spent the whole day out in Prospect Park skating and playing hockey, as well as 'hockey.' So tonight, after his delinquency had been explained to me by his mother here, who said, 'Punish him, Tom—but not too hard, will you, dear?'—I took Master Jim up to my room and gave him a good sound thrashing.

"He stood it like a Spartan, though I assure you that I did not spare the rod. A few minutes later I saw him join his brothers who had been waiting around the corner, and I heard one say, jeeringly:

"Hello, Jim! Got sick, didn't you?"

"'Yep,' replied Master Jim, 'but—with a shrug of his shoulders—'what's three minutes' licking to a whole day's furlay?'

CAUTION!

This is not a gentle word—but when you think how liable you are not to purchase the only remedy universally known and a remedy that has had the largest sale of any medicine in the world since 1868 for the cure and treatment of consumption and throat and lung troubles without losing its great popularity all these years, you will be thankful we called your attention to Bosches' German syrup. There are so many ordinary cough remedies made by druggists and others that are cheap and good for light colds perhaps, but for severe coughs, bronchitis, croup—and especially for consumption, where there is difficult expectoration and coughing during the nights and mornings, there is nothing like German Syrup. The 25 cents size has just been introduced this year. Regular size 75 cents. At all drug-gists. DuBois, Kolb & Co.

Mental

Strain Affected General Health.

Doctor's Doses Weakened Stomach.

Dr. Miles' Nervine Cured Me.

Dr. Miles' Restorative Nervine brings rest and sweet sleep to the tired brain worn out with the cares and anxieties of the sick room. Kindle the following:

"I have always been healthy with the exception of a touch of rheumatism since my age came on, up to the time of my husband's last illness some years ago. I assisted in nursing my husband for nearly three months when he departed this life and the mental strain I think caused my trouble. Aside from extreme nervousness my trouble commenced with sore throat and neuralgia. My physician gave me purgative doses which weakened me very much and my stomach for a time seemed inactive. Mental strain and the dormant condition of my stomach soon told upon my general health. I had little appetite and was soon forced to stay in bed a greater part of the time. Within a week after the time I began taking Dr. Miles' Restorative Nervine and I continued their use until completely cured. My faith in Dr. Miles' Remedies has been strengthened by experience of other people, our daughter having used Restorative Nervine with splendid results in a case of paralysis and a friend to whom I sent a box of the Anti-Pain Pills reports that she has been completely cured of neuralgia by their use. I know of a number of others whom your medicine has helped in a large degree. I wish you continued success."

FREE TRIPS TO ST. LOUIS WORLD'S FAIR. ALL EXPENSES OF THE 120 MOST POPULAR SCHOOL TEACHERS IN THE STATE PAID.

School children and public generally invited to vote to determine the most popular teacher in every county, votes to be cast each, ten casts one time. All money over and above trip expenses of teachers to go into erection of the Kentucky Building and Education. Every teacher thus knowing a worthy cause and important object have been aided, at the same time a favorite teacher has received recognition. Contest conducted under auspices of Educational Exhibit Committee of Kentucky Exhibit Association, the organization of the Kentucky Building and full display of the state's products and resources at the Fair, the legislature having appropriated \$10,000 for the construction. Every teacher in the state, whether teacher in public or private schools, or theological institution, protestant or catholic diocesan school, is eligible to election. Members of the Educational Exhibit Committee are invited to vote.

Number of all school children voting to be enrolled in the Kentucky Building at the Exposition Kentucky will have an educational exhibit occupying 2,000 square feet of space in the Palace of Education. The Exposition is to be the greatest international event in the world's history. The 120 teachers chosen will be lucky indeed in being tendered this trip to the Fair. Every county elects its own most popular educator. The county outside of Jefferson casting the largest number of votes will be allowed to send two teachers—the most popular and the second most popular.

THE TOTAL WILL BE THE CENTRAL TEN CONSTITUTING A BALLOT.

After casting each county school child in the state will be able to cast at least one vote for his or her favorite teacher. But the voting will not be confined to school children.

PARENTS OF PUPILS OR ANY OF THEIR FRIENDS MAY VOTE. The purpose of the Association being to elect the most popular school teacher in each county, as considered by the public generally, as well as by the school children. Ballots contain ten spaces, as clubs of ten pupils may be arranged and each giving ten cents be credited with his or her vote. If one person desires to cast ten votes, he may do so by writing his name on each of the spaces and remitting one dollar. It is not required that the voter be a member of the Association.

Each voter may cast one vote for his or her favorite teacher.

ALL EXPENSES OF THE TEACHERS WILL BE PAID by the Association. This will include railroad transportation from Louisville to St. Louis and return, board at one of the best hotels in the city for six days and entertainment to the exposition grounds for six days.

THREE PARTIES WILL BE MADE UP FROM THE MOST POPULAR TEACHERS to make the trip more profitable and more enjoyable. Each of the parties will consist of forty (40) teachers. The Association has decided to allow two teachers—the most popular and the second most popular—to go from that county—Jefferson excepted—which casts the greatest number of votes in the contest.

ALL TEACHERS IN THE STATE STAND ON EQUAL FOOTING in this contest. The teacher with only twenty pupils may receive more votes than the teacher with five or six times as many enrolled in his or her school, because the voting is not confined to children.

Very likely he cast for any person who taught school during 1903 or is teaching now. This gives the teacher of a five month's school, which closed in November or December, the opportunity to be voted for during the vacation period.

ANY NUMBER OF BALLOTS MAY BE CAST AT ONE TIME. There is no limit. The more dollars sent in for any one teacher the more votes he or she will be credited with.

ONE DOLLAR CASTS TEN VOTES; TWO DOLLARS CASTS TWENTY VOTES; THREE DOLLARS CASTS THIRTY VOTES; FOUR DOLLARS CASTS FORTY VOTES; FIVE DOLLARS CASTS FIFTY VOTES; TEN DOLLARS CASTS A HUNDRED VOTES; ONE HUNDRED DOLLARS CASTS ONE THOUSAND VOTES.

All of the money received in this contest, over and above that used in defraying expenses of the 120 most popular teachers of the State on their trips to the World's Fair, will go for the erection of the Kentucky Building and the exposition so every voter in this contest may have the additional satisfaction of knowing that his money is used for a worthy cause.

REMEMBER EVERY COUNTY ELECTS ITS OWN FAVORITE TEACHER. Competition between counties only applies to the race for the 120th trip, the county outside of Jefferson, casting the largest total number of votes being granted the distinction of sending two teachers.

The result will be announced in every paper in the state, and, in addition to this, a congratulatory message will go to the teacher elected in each county. Later the details of the trip will be arranged, each teacher chosen being given the privilege of selecting the month—June, July or August, 1904—in which he or she wants to make the trip.

ARE WE BECOMING INDIANS?

Many opinions of Americans and Americans are daily found in the great journals of Europe, showing our growing importance in the world of finance, letters and art. Some of the ideas expressed are very amusing, while others are ridiculous. In a recent issue of London Truth a writer claims that it is America that is making history, and it is admitted that the "independence of the individual, the wealth of the country, the enterprise and energy of Americans and the fast-growing power of the United States are having an enormous influence on the present situation. If the Americans are like this, why are we so unlike them? Is the question which millions in the old world are asking. It is not the character or climate, but political conditions which give them those advantages, they argue."

These people seem to have realized the facts without being able to divine the causes.

In another London paper a preacher, worked up over the Delaware lynching, takes a very opposite view. Instead of seeing history makers and exponents of progress in Americans, he finds that we are becoming Indians. He declares there has been a change in our character suggestive of strange developments in the future, and concludes:

"I have noticed that the young men of America are steadily approaching a type which, in its high cheekbones, piercing eyes, straight nose, hollow cheeks and long, active limbs, recalls the Indians of the past. These warlike savages were notorious for cruelty, and we cannot but accept the inference. Again, is not it possible that the climate of the United States should ultimately cause a change in its inhabitants? If that country has once produced a race like the Indian, with strongly marked characteristics, it may be that in the course of time its new inhabitants will be similarly affected. For the civilization of the world such an event would be a serious danger, most unpleasant to contemplate."

The English clergyman was probably never in America, judging from his somewhat indiscriminate remarks, and it is probable if the distinguished gentleman should come over he would find anything but evidence of a return to prehistoric times and types. It is true some of the young men of this generation resemble Indians and even worse, but the race as a whole is going onward and upward.

Bad sidewalks often cause a city much more in the way of damage than it would cost to repair them. The public is entitled to good pavements and streets, and should have them. The city of Madisonville has by a decision of the court of appeals just rendered had to pay a woman \$3,500 damages because her husband fell through a hole in the sidewalk and died from the injuries. Something should be done to repair bad places in the sidewalks of Paducah.

Richardson's lot of paving stones between Fourth and Fifth streets that has been a menace to the passing public for over a year and nothing has ever been done to repair it.

The German is well pleased with his new home in the new Broad-

press is especially impressed with the cordiality manifested on the kaiser's visit to the Kearsarge at Kiel last Saturday. Every nation will always find the United States friendly at all times, even if officials occasionally.

With Kentucky's lawlessness in Breathitt county, Delaware's shame in burning a negro at the stake, Arkansas' torture of convicts and Missouri's bootlegging, there is convincing evidence that the millennium is not yet here and that the missionaries can keep busy for some time yet to come.

The intention of the Russian government to ignore the petition of certain citizens of the United States in regard to the recent Jewish massacres will likely not cause trouble, according to reports. In fact there will be no grounds for the slightest ill feeling.

It's dollars to doughnuts that the young women of Danville who have formed an "anti-marriage" club did not have to go to the trouble.

Jim Howard and Governor Beckham have expressed their opinions one another and it appears to be about an even break.

THEY ARE NOT AFRAID

Jackson Officials Say They Do Not Fear Assassination.

General Murray Taking Drastic Steps to Wipe Out Lawlessness in Breathitt

Jackson, Ky., June 29—City Judge T. J. Cardwell and Judge John E. Patrick were summoned before Adjutant General D. R. Murray and questioned regarding the reports in circulation that they feared assassination and did not leave their offices. Both men denied that they were apprehensive of danger and declared there was no foundation for the reports. General Murray assured them that if they felt uneasy regarding their safety he would furnish them with a guard for their protection. Both men signed statements to the effect that they felt safe, and that there was no reason for furnishing them with a military guard.

General Murray issued orders to W. C. Longmire, the provost marshal, to report all arrests to Police Judge Cardwell and to execute any process issued and placed in his hands by the police judge. The order is written and posted at the jail courthouse and in camp.

Part 2 says that absolute safety to life must be maintained in Jackson, and if there is any violation of rights to persons or property in the town of Jackson or county of Breathitt, extreme authority of the commanding officer will be exercised. General Murray intends getting at the bottom of the trouble and doing away with the intimidation which has so long existed here. General Murray ordered one Hotchkiss gun to the court house square and gave Captain Longmire orders to fire into any building from which shots are fired. There is no town marshal and the police judge can not summon witnesses or jurors.

NEW W. O. W. MATTERS

Boys Auxiliary to Uniform Rank to be Organized.

Mr. J. W. Helsey Gets Another Good Appointment.

The Woodmen of the World, who have about completed the organization of a uniform rank here, will organize Tuesday afternoon a boys' auxiliary, which is to include the sons of Woodmen between the ages of 12 and 17, and will be an auxiliary uniform rank, or probably a drum and trumpet corps to accompany the uniform rank.

A meeting will be held by the Woodmen of Jersey camp Thursday night next to complete the uniform rank organization. The captain has been selected, and is Mr. E. W. Johnston. The other officers will probably be selected at the called meeting Thursday. A great deal of enthusiasm is being displayed in the new rank, and its membership will reach the limit.

Mr. J. W. Helsey of the city, who is deputy organizer, today received his appointment as deputy supreme guardian for the state, an honor of which he may well feel proud. Mr. Helsey is doing a good work for the Woodmen, and Saturday week goes to Grahamville to install a new camp. It was to have been installed the coming Saturday, but being Fourth of July it was decided to postpone it until the following week.

A large crowd witnessed the baseball game yesterday afternoon between Olive and Jersey camps, W. O. W., at the league park. Olive camp won by a score of 18 to 8, it is alleged because of an expert corps of rooters. The game was very enjoyable and the turn-up was as follows:

Olive camp—Virgil Wilson pitcher, Ed Hart catcher, Geo. Bondurant first base, N. G. Yoder second base, A. L. Patmore third base, Geo. Swenter short stop, Frank Roark left field, John Lenhard center field, John Hoffman right field.

Jersey camp—Tom Evitts pitcher, Ernest Galloway catcher, Chas. Gallo-

way first base, Marion Riley second base, Fred Perry third base, Wm. Probst short stop, H. H. Doyle left field, Chas. Dunlap center field, Oscar Miller right field.

WANTED TO BE SURE.

Convict Clubman Uncertain Where
Drink It Was.

The newly completed skyscraper at
the intersection of Broadway, Fifth
avenue and Twenty-third street is ad-
vertised in a novel way by illumina-
tion of its various stories with an-
circling ribbons of light, so that it
presents a striking effect at night. Re-
cently two clubmen who are noted
for their convivial proclivities dined
garners at a restaurant in the
neighborhood, spending the major part
of the evening in the cafe, consuming
liqueurs, highballs, P. P. C.'s and "just
one more for the last." As they were
about entering their cab one aspied
the tall building with its alternate
bands of light and shade dying away
in deep shadow at the base and said:
"Say, chappie, iss dat your posse-
cafe or iss it mine?"—New York

Change In the Taxation Laws Would Bring Them.

SO THINKS WILLIAM A. ROBINSON.

Makes a Plain, Business-Like Talk Before State Commercial Convention, Urging Amendment to Constitution Regarding Local Taxation—To Be Voted on Nov. 1.

It has long been conceded that taxation plays an important part in the development of the products and resources of any state and those who attended the recent State Commercial Convention at Louisville had a striking example of this brought to their attention in the speech of Mr. William A. Robinson, of Louisville, on the subject of local taxation, in view of the proposed amendment to Section 151 of the State Constitution to be voted on the next November election. Judge S. S. Savage, of Ashland, presided over the meeting and is Chairman of the State Committee that is seeking to set the people right on this amendment. Mr. Robinson's speech in part was as follows:

In the first place, I would remark, that taxation is a subject in which every good citizen is interested more or less, either directly or indirectly. The Constitution of 1850, the present Constitution under which we are governed, was the first of the four Constitutions of the State of Kentucky to fix an inflexible system in the organic law as to local taxation, and it was a complete resolution in regard to taxation on the industrial interests of our Kentucky cities. It was a radical measure, and, as I believe, with all the intelligent states, I have been able to give it. It was a great mistake in policy, and I believe it is a great mistake in principle. It is contrary to the great American doctrine of home rule and local self-government, especially on that most vital question of local taxation for local government. It substituted an so-called uniform and equal system for the Monroe system on business enterprises. It made every merchant and every manufacturer his own assessor, and I believe you will be found to be in the Court of Appeals unconstitutionality.

This amendment which is now proposed simply places us back practically in the matter of local taxation to where we were before under the former Constitution. It restores to all cities, not to cities of the first-class only, as is often stated in our papers, but to all cities, every city in the State of Kentucky, the right under the general act of the Legislature, to fix its own assessment, its own system of taxation on all other property except real estate. They will have the right to tax by themselves or otherwise. It lodges the power with the local government, subject to our State Legislature, composed of the representatives of the people of the State.

Now, bear in mind that it makes no change whatever in the system of taxation, for either State or county. Remember also that it bears upon all the cities of the State, not upon cities of the first-class, or cities of any other class, but all, the cities of the State. No city and no town need adopt this plan unless they choose to. It is optional with the local authorities, with the people who are to be taxed. The representatives of the people to be taxed may under which system they wish to be taxed, and the Legislature, by general law may authorize the cities that choose to adopt this plan to adopt it. So that it is a purely local matter, left to the people of each city, and I submit to you whether Lexington or Paducah have not a perfect right to say how shall pay their bills, how they shall pay their department, how they shall build their streets, how they shall build their sewers, without the intervention of the general State Government at Frankfort.

I have faith that when it is properly understood and brought before the people of our State it will receive a large majority of the votes next November. I believe it is to the interest of the State as it is to any city, because as you build up your cities you certainly add to the revenue of your State. You add to the wealth, and you add to the population. Bear in mind that it only requires a majority of the votes cast on this question, and not a majority of all the voters of the State. We must have prompt action now, because if this measure fails to receive a majority in November, under the Constitution of our State the matter cannot be brought up again for five years.

The farmers are as much interested in this matter as any of our people. It is a plain proposition that the farmer is best fitted as you make larger home markets, because he gives him the consumer at home for his product, without the loss of freight. The agricultural interests of the State are going to be subversed as you increase the population. They cannot compete, that is, for the export business, with the cheap lands of the West in raising wheat. They must raise market products, and other products, and grain for consumption right here at home among our own people. Factories must be located in cities, because it is there that you find labor. It is there you find transportation. Therefore the people of Kentucky must let the cities of the State—all the cities, not only cities of the first class—decide this important question of how you are going to tax these industries. The cities only are af-

SOUNDS A KEY-NOTE.

President Ford's Speech Before Commercial Convention.

KENTUCKY MUST FORCE TO FRONT.

World's Fair at St. Louis Next Year Offers the State the Opportunity of a Century to Show All the People of the Earth What She Really Is.

During the recent State Commercial convention held in Louisville, one session was devoted exclusively to the work being done by the Kentucky Exhibit Association for adequate representation of the state at the World's Fair in St. Louis. The speech delivered by the President of the Association, Mr. A. Y. Ford, managing editor of the Courier-Journal, was "so full of eloquent facts, so eloquently spoken," as Col. W. C. P. Breckinridge expressed it later in the evening, that we have decided to give it to our readers. In part it is as follows:

The movement for a creditable representation of Kentucky at the great World's Fair, which is to mark the Centenary of the Purchase of the Louisiana Territory, appeals both to business interest and patriotic sentiment.

It appeals to business interests, because no community more than Kentucky needs to have itself properly advertised to the world, not only for the correction of that false report into which it has been brought by persistent and long-continued misrepresentation, but because, at this particular juncture, in the material development of the country, it finds an unusual opportunity and a pressing necessity to demonstrate to that world of capital and of home-seekers the superior advantages which it offers as an undeveloped State, in which all the essentials of profitable development are to be found.

It appeals to sentiment, because the Kentuckian's characteristic pride in the achievements of the founders of the Commonwealth can find in all the long, illustrious story nothing more fit to inspire it than the part which the men of this State have played in that marvelous national drama of expansion, of which the Louisiana Purchase was a part.

How could Kentucky forego her claim to a share in the glories of a region at whose birth into the Union she stood sponsor, created a part of this household of UD-

season opened June 1. The Park is increasing in popularity yearly and it is becoming quite the thing for special parties to visit it. Then, too, people stay there longer. Although the regular tourist trip provides for 5½ days in the park, any one can remain longer without any extra charge for transportation. Many cannot afford to spend more time than 5½ days there so the regular schedule is based on that fact.

The hotels are all modern in appointment, electric lighted and steam heated and the trip through this Wonderland is the finest coaching trip to be found in the country.

The government is spending large amounts of money in perfecting the road system. New roads, new steel bridges, improving old roads, is the order of things.

Yellowstone Park is the biggest thing of the kind in the world and "WONDERLAND 1903," which describes it and is published by the Northern Pacific, will be sent to you on receipt of six cents by CHAS. S. FEE, St. Paul, Minn.

bear me out, those of you who have observed the working of this law, that it is as uniform and as variable as the flexibility of a man's conscience, his judgment, or his sense of right. It is necessarily unequal, ununiform, and therefore, unfair and unjust. The change led to litigation which has gone on for ten years, there being many cases in the Court of Appeals unsettled.

This amendment which is now proposed simply places us back practically in the matter of local taxation to where we were before under the former Constitution. GRAUSTARK

...By... GEORGE BARR McCUTCHEON

Copyright, 1901, by Herbert B. Stone

where he lived. From the city came the promise of ultimate escape, verbal messages from those who loved him, news of the world—all at long intervals, however. Quinnox's visits were like amusements to him. The dashing captain came only at night and in disguise. He bore verbal messages, n wise precautions against mishap. Not once did he bring a word of love from the princess, an omission which caused the fugitive deep misery until a ray of intelligence showed him that she could not give to Quinnox the speeches from her heart, proud woman that she was.

Anguish sent words of cheer, with commands to be patient. He never failed to tell him through Quinnox that he was doing all in his power to find the real murderer and that he had the secret co-operation of the old police captain.

Of course the hidden man heard of the reward and the frenzied search prosecuted by both principals.

He laughed hysterically over the deception that was being practised by the blue eyed, slender woman who held the key to the situation in her keeping.

It was not until the night of the 18th of November that Quinnox confirmed his fears by telling him of the conditions imposed by Prince Boloroz.

For some reason the young officer had deceived Lorry in regard to the all important matter. The American repeatedly had begged for information about the fatal 20th, but on all previous occasions his visitor doggedly maintained a show of ignorance, vowing that he knew nothing of the circumstances.

Finally Lorry, completely out of patience and determined to know the true state of affairs, soundly upbraided him and sent word to the princess that if she did not acquaint him with the inside facts he would leave the monastery and find them out for himself.

This authoritative message brought Quinnox back two nights later with the full story of the exciting conference.

She implored him to remain where he was and asked his forgiveness for having kept the ugly truth from him.

Quinnox added to his anguish by hastily informing him that there was a possibility of succor from another principal.

Prince Gabriel, he said, not knowing that he was cutting his liaison to the heart, was daily with the princess, and it was believed that he was ready to loan Graustark sufficient money to meet the demand of Boloroz.

The more thought that Gabriel was with her aroused the deepest resentment in Lorry's breast.

As he paced his narrow room distractedly a horrid thought struck him so violently that he cried aloud and staggered against the wall, his eyes fixed on the face of the startled soldier.

Perhaps she might submit to Gabriel, for in submitting he could save not only Graustark, but the man she loved.

The sacrifice—but no, he would not believe that such affliction could come to her!

Marry Gabriel—the man who had planned to seize her and make her his wanton! He ground his teeth and glared at Quinnox as if he were the object of his hatred, his vicious jealousy.

The captain stepped backward in sudden alarm.

"Don't be afraid!" Lorry cried nervously. "I'm not crazy. It's your news—your news—your news! Does she expect me to stay up here while that state of affairs exists down there? Let me go; this is the 18th, and day after tomorrow is the 20th. There is no time to be lost. Call Quinnox back two nights later with the full story of the exciting conference.

"Stay, your highness. I submit to your proposition regarding the other stranger, although I doubt its wisdom.

There is but one in whom I am really interested—the one who killed my son.

There is to be no cessation in the effort to find him, I mean to understand. I now have a proposition. With me are 300 of my bravest soldiers. I offer them to you in order that you may better prosecute the search. They will remain here, and you may use them in any way you see fit. The Duke of Mizrox will linger in Edelweiss, and with him you and yours may always conifer.

He also is at your command. This man must be retaken. I swear by all that is above and below me he shall be found if I hunt the world over to accomplish that end. He shall not escape my vengeance!

"And link you to this: On the 20th of next month I shall demand payment of the debt due Asaphine. So deeply is my heart set on the death of this treacherous Lorry that I agree now, before all these friends of ours, that if he be captured and executed in my presence before the 20th of November, Graustark shall be granted the extension of time that would have obtained in the event of your espousal with the man he killed.

You hear this offer, all? It is bound by my sacred word of honor.

His tenth before the 20th gives Graustark ten years of grace. If he is still large, I shall claim my own. This other, I believe, most gracious Yetive, will greatly encourage your people in the effort to capture the man we seek."

The princess heard the remarkable proposal with face deathly pale, heart scarcely beating. Again was the duty to Graustark thrust cruelly upon her. She could save the one only by sacrificing the other.

"We will do all in our power to—to prove ourselves grateful for your magnanimous offer," she said. As she passed from the room, followed by her uncle, she heard the increasing buzz of excitement on all sides, the unrestrained expressions of amazement and relief from her own subjects, the patronizing comments of the visitors—all conspiring to sound her doom. Which way was she to turn in order to escape from herself?

"We must catch this man, Yetive," said Halfont on the stairway. "There is no alternative."

"Except our inability to do so," she murmured. In that moment she determined that Grenfall Lorry should never be taken if she could prevent it. He was innocent, and it was Graustark's penalty to pay.

"We will do all in our power to—to prove ourselves grateful for your magnanimous offer," she said. As she passed from the room, followed by her uncle, she heard the increasing buzz of excitement on all sides, the unrestrained expressions of amazement and relief from her own subjects, the patronizing comments of the visitors—all conspiring to sound her doom.

Correct Summer Clothing The Kind That Won't Lose Shape

Did you ever notice how quick thin clothing loses its shape? It's because it is not made right. We overcome that fault in our Correct Summer Clothing—we've had it made a new way. The coats have a full shoulder, with hair-cloth stiffening down the front, that keeps them from breaking or losing shape. The pants have cuff bottoms, concealed buttons and belt straps, the cloth is thoroughly shrunk which overcomes bagging at the knees. There's no clothing like it for fit and style in Paducah. We show the new Irish Donegal Cloths, Cheviots and Home-spuns in coats and pants for men and young men.

GOT TWO OUT OF THREE.

The Paducah baseball team won a game, 11 to 6, and lost a game, 7 to 4, at Cairo yesterday afternoon in the last game, and the ball was so hot that it slipped through Witt's fingers and struck him over the right eye. He was knocked to the ground and had to be taken out of the game. This is the second time Witt has been injured by balls struck by Paducah players, having been struck in the month in the home series here in Paducah last week.

The Peewees defeated the Coca Cola in a practice game at Wallace park grounds yesterday morning by a score of 8 to 5. There have been two regular games played between these teams and each has been victorious. On the Fourth of July they will meet again and the fight will be hard and will probably be witnessed by many local fans, as no professional game will be played here on that date.

The batteries in the first game were Freeman and Perry for Paducah and Brockett and Riddle for Cairo. Brockett was hit freely, but the hits were well fielded. Freeman struck out over a half dozen, but the Cairo players were lucky in placing their hits.

The second game was played fast until the seventh inning, when Cairo bunched several hits and forged ahead, followed by Paducah's fireworks, which disheartened the Cairo fans and took all the life out of the players. Holyooses pitched for Cairo and Riddle caught and Girard and Perry did the battery work for Paducah. Girard was not easily found and pitched an excellent game, all the few hits being well fielded. Holyooses was freely hit in the first several innings, but when the seventh inning was reached Manager Echenberger had to take him out and substitute Clark, who was knocked out of the box in one of the games here last week. Betting was freely made in all parts of the grandstand and at least \$1,000 changed hands after the game.

WON SATURDAY'S GAME.

Paducah plucked victory from what seemed certain defeat Saturday afternoon at Cairo. The Egyptians had things pretty much their own way, as usual, making one score in the first inning, five in the second and one in the sixth. Paducah made one in the fifth and no more until the ninth, when the Indians touched off a display of fireworks which netted them seven runs, beat in Cairo by one score. The grounds were muddied from much rain, and considering conditions the game was a good one. Wilson and Perry and Dicken and Riddle were the batters.

PADUCAH AT HOME.

Today Henderson comes to Paducah for three games, and much interest is felt. Henderson is on the road down ward owing to the set-back from the three games forfeited to Hopkinsville.

Lewis, one of Jackson's pitchers, has been appointed official umpire and umpired the game at Cairo yesterday. He is said to be something awful, and will probably soon be "sacked."

JUST A LITTLE DOPE.

Bud Laingsford will umpire this afternoon's game.

McNutt will pitch for Henderson this afternoon and Warner will catch.

President Ben Weille this morning telegraphed Abe Akers of Louisville, who was an outfielder for the Owensboro team. Akers is a fast fielder and was one of the star players in the Owensboro team. He will probably arrive tonight.

Halden, the new pitcher from Oakland, Ky., will arrive this afternoon or tonight and will be placed in the box immediately on arrival. He comes with a good reputation and the local management think they will find a good man in him.

The Alden Knitting Mills tenin of

Paducah went to Metropolis yesterday and played the boys of that town, being defeated by a score of 11 to 5. Dick Brahma, pitcher for the local team, struck a Metropolis player with a pitched ball and badly hurt him, a physician having to be summoned to attend him.

Pitcher Hedges last night received a telegram from Manager Joe Cannister of the Milwaukee American association team stating that he could not understand why he, Hedges, had not received transportation and that he would telegraph it again today. Hedges is waiting on his pass and will not leave until it gets here.

Dr. Irvin Thompson, president of the K. I. T. League, was in Mayfield yesterday visiting friends and returned this morning accompanied by George Dunlot of Mayfield, who has been captain of the Danville deaf mutes baseball team. Dunlot is a catcher and first baseman and is rather small in height, but heavy in build. He will probably be tried behind the bat this afternoon.

Girard struck a hard liner to Third Baseman Witt of the Cairo team yesterday afternoon in the last game, and the ball was so hot that it slipped through Witt's fingers and struck him over the right eye. He was knocked to the ground and had to be taken out of the game. This is the second time Witt has been injured by balls struck by Paducah players, having been struck in the month in the home series here in Paducah last week.

The Peewees defeated the Coca Cola in a practice game at Wallace park grounds yesterday morning by a score of 8 to 5. There have been two regular games played between these teams and each has been victorious. On the Fourth of July they will meet again and the fight will be hard and will probably be witnessed by many local fans, as no professional game will be played here on that date.

Farmer Logan of Lexington, a pitcher of much reputation, has agreed on the terms offered by President Ben Weille and is supposed to be en route here now to join the team. He has not been signed yet, but will in all probability, having agreed to do so. It is said that Nashville has signed him, but Mr. Weille stated this morning that he knew nothing of the matter and that he thought Logan would come.

The Henderson boys won two straights yesterday from Hopkinsville, Bowling and Gardner pitching the games, but Paducah will have an easy time with them from all reports, the team being badly crippled. "Kid" Ogden, the captain and right fielder, broke a leg last week while sliding and is out of the game, and a general change has been caused by the accident. Paducah fans feel confident of two games at the least.

Girard won a reputation yesterday at Cairo and his work in the box was much admired by the Cairo fans. He has plenty of steam and Perry displayed great ability in holding him. President Weille has instructed Captain Gage to place Girard on the bench and he will play in the field no more, being seen in the box entirely. This takes out one of Paducah's hardest and surest hitters.

Freeman did good work in the box yesterday, but had the misfortune against him and was also disheartened by several costly errors. He made one of the feature catches of the second game while covering right field. A long line drive was knocked and Clifford did not accept the chance, leaving it to Freeman, who had started after it from the very jump. He made the catch and won much applause from the grandstand.

It is understood that the Cairo management will give Wallace, the left fielder, his release to come here for \$100. This is too much, according to a member of the local association, but if Cairo wants to let Wallace go Paducah will give \$50 for his release. Wallace, it is understood, wants to come here, and also does fingers, but no offer has been made either ant President Weille says he will not make a proposition unless he is solicited to by the player or the Cairo management.

It will be of some interest to the public to know that Freeman is not only a good baseball pitcher, but has made a success in the pugilistic ring and also in poloing, having served two years as a police officer in Dresden, Tenn., his home. Freeman while quelling a disturbance was shot in the hip and leg, but managed to conquer his man and made the arrest, taking the gun away from his antagonist and arresting him singlehanded. Freeman first played in left field when he took to baseball, and then went to short stop and then to first base, remaining there for some time and later taking to pitching.

By "X-Rays."

Just for once won't you try a pair of shoes that are not made from guesswork measurements of what your foot ought to be, but from "X-ray" photographs of what women's feet really are?

The "Dorothy Dodd" Shoe is exactly shaped to the bones, muscles, and ligaments of the foot, as they are plainly revealed by "X-ray" photograph. This is the explanation of why you hear so much talk on all sides about the wonderful "Fit of a Dorothy Dodd." The shoe deserves its popular nickname of "an arrangement in comfort." But all this is of no help to you unless you own a pair. On the day you buy them you will learn a new lesson in Foot Comfort.

After that, no one can sell you any other shoe but a "Dorothy Dodd."

Sincerely yours,

DOROTHY DODD.

This is what you see very often—in fact every day at our store. It's "Coffee Smoke," as you can readily tell, even two blocks away. You say yourself, "Bockmon is ROASTING COFFEE." If it's so fragrant so far away, can't you imagine it would be "inimitable" in the cup on your table, because it's fresh roasted? An order from you would give us an opportunity to convince you.
